

Change the Windows Audio Output

Wolf Creek step-by-step guide

Before you begin: Connect the speakers, headphones, display, or other audio device you want to use.

STEP 1 Find the speaker icon

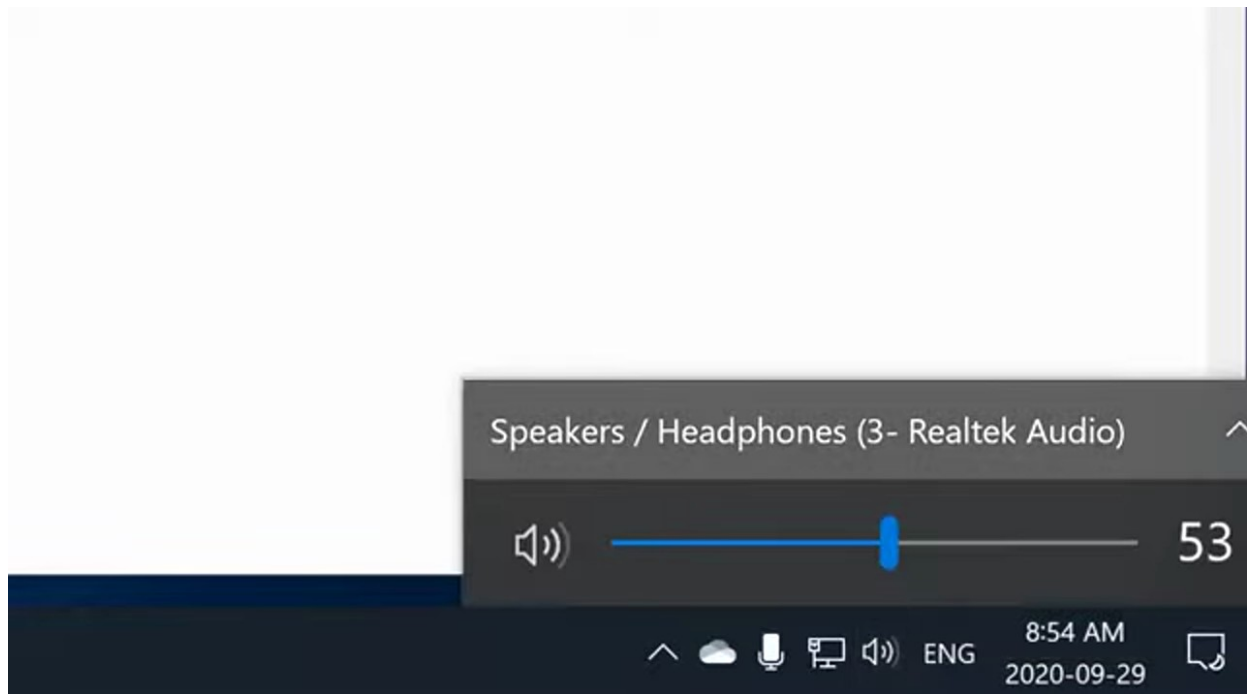

Locate the speaker icon in the notification area at the bottom-right of the Windows desktop.

Find the speaker icon.

STEP 2 Open the playback-device list

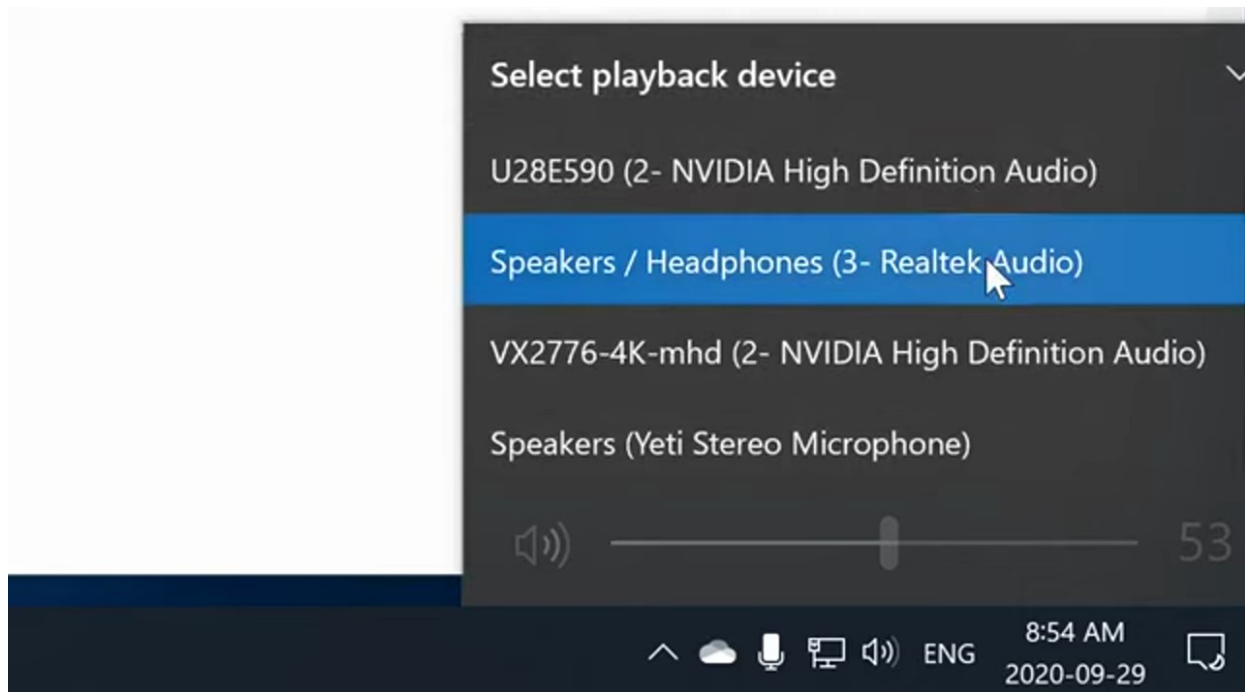

Select the speaker icon, then open the playback-device selector.

Open the playback-device list.

STEP 3 Choose the audio device

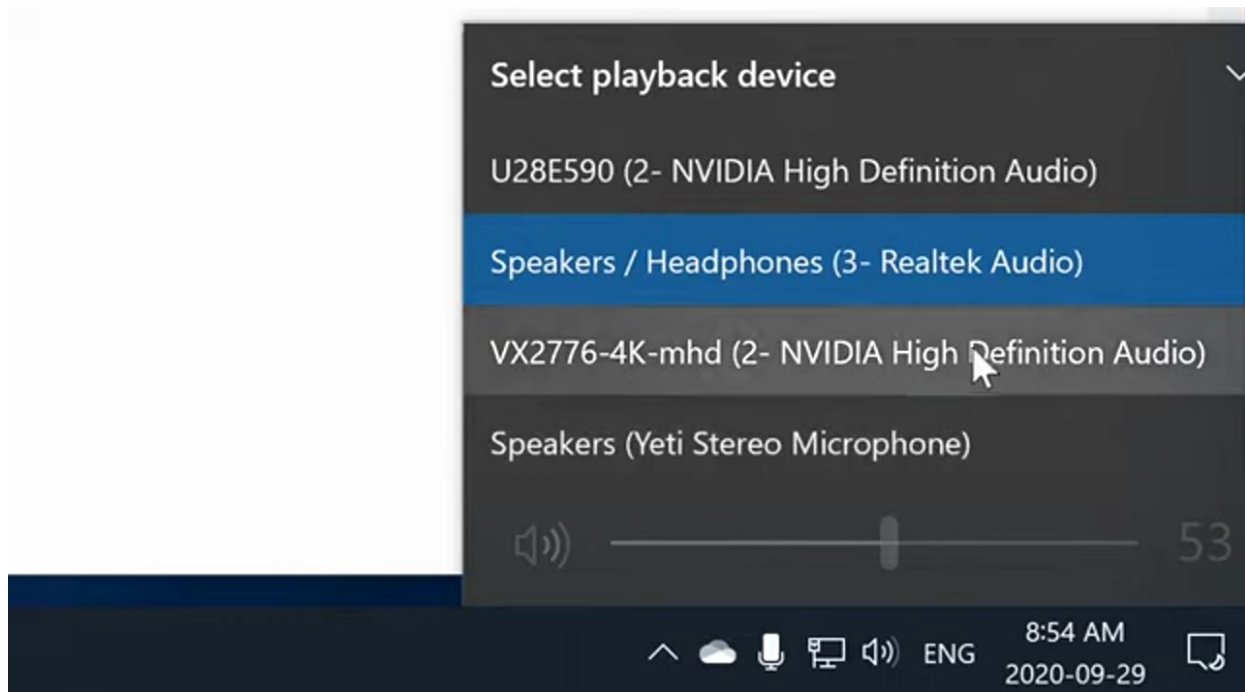

Select the speakers, headphones, monitor, or other output device you want Windows to use.

Choose the audio device.

STEP 4 Test the sound

Play audio and confirm that it comes from the selected device. Adjust the volume if needed.

Test the sound.
