

Connect a Chromebook to Wi-Fi and Sign In

Connect to a wireless network from the Chromebook sign-in screen, then sign in to your WCPS account.

Wolf Creek Public Schools - Technology Services

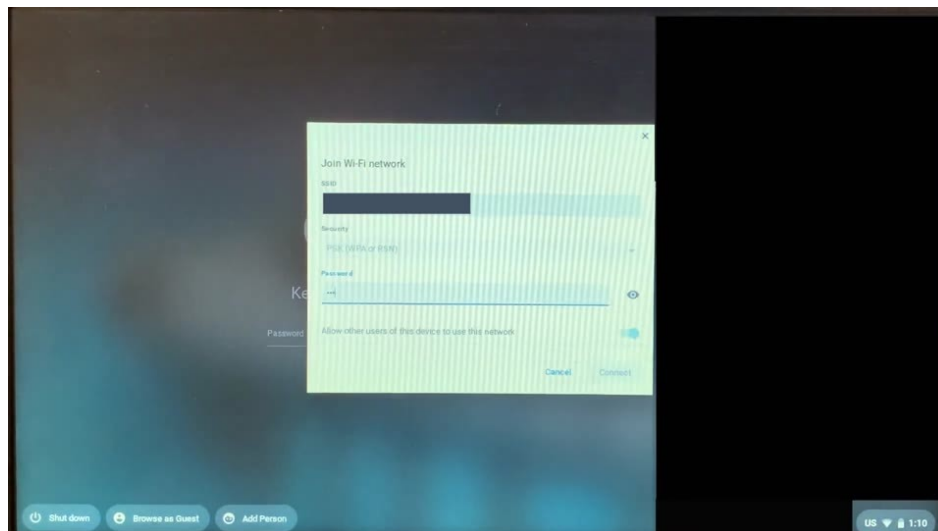

1. Open the network menu

From the sign-in screen, select the status area in the lower-right corner, then select Network.

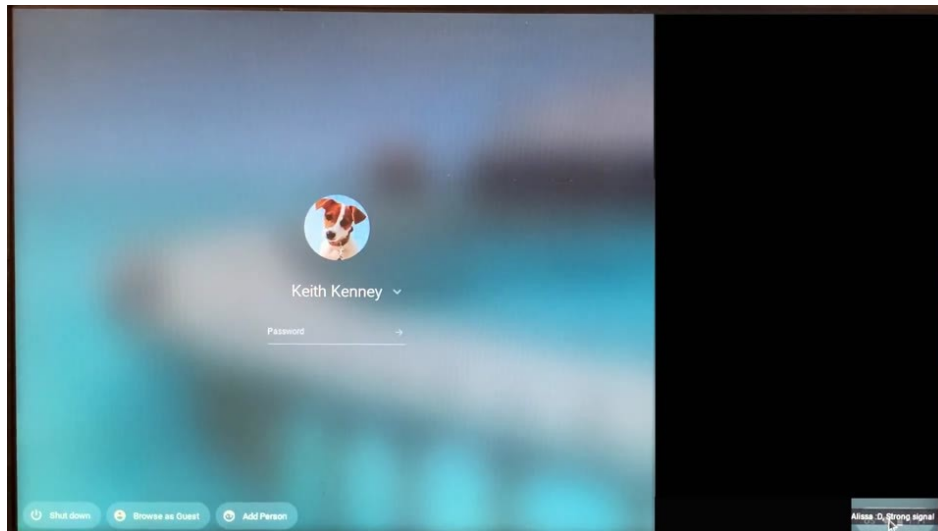

2. Choose the Wi-Fi network

Select the wireless network you want to join. If prompted, enter the network information or password.

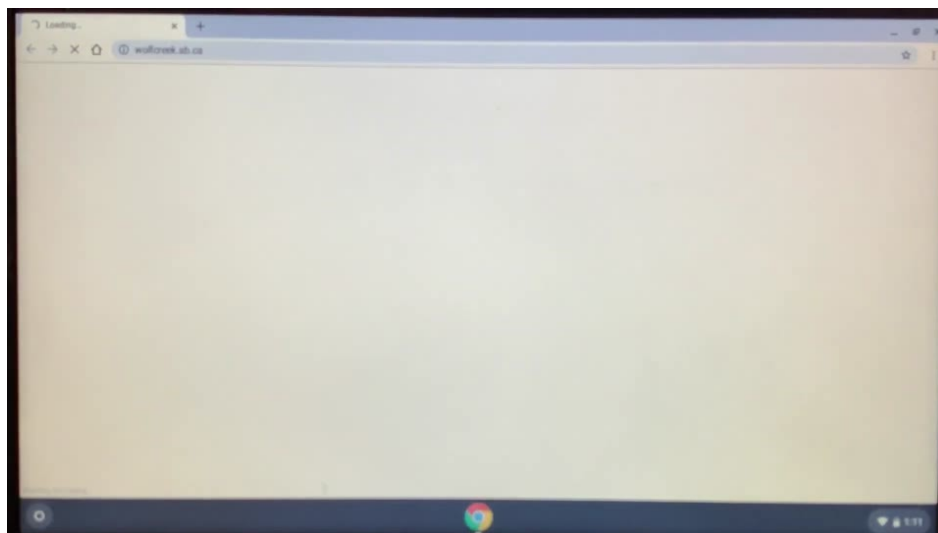

3. Return to sign-in

Once the Chromebook is connected to Wi-Fi, return to the sign-in screen.

4. Sign in

Select or add your profile and complete the WCPS sign-in prompts. The Chromebook will finish signing you in and open Chrome.
