

Update ChromeOS on a Chromebook

Check for ChromeOS updates so the Chromebook has current features and security fixes.

Wolf Creek Public Schools - Technology Services

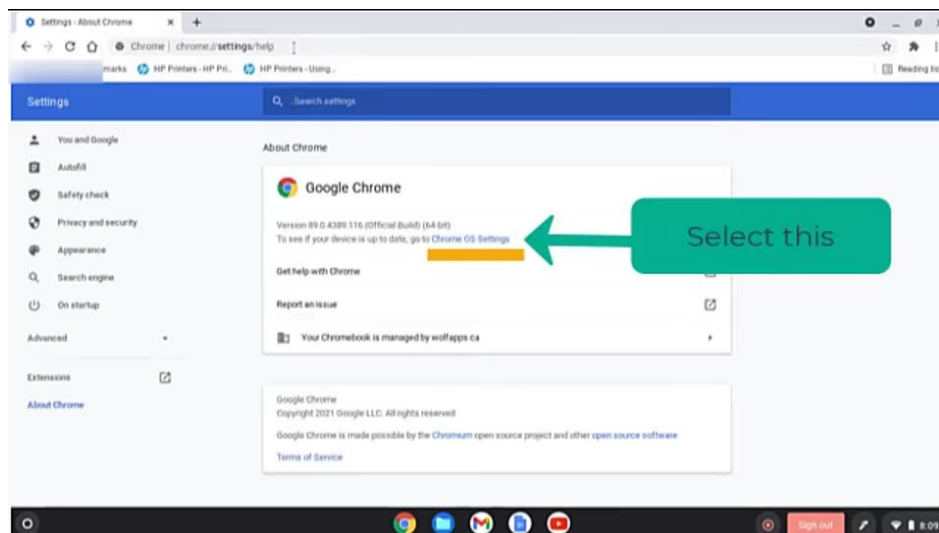

1. Open Settings

Select the status area in the lower-right corner, then select the Settings gear.

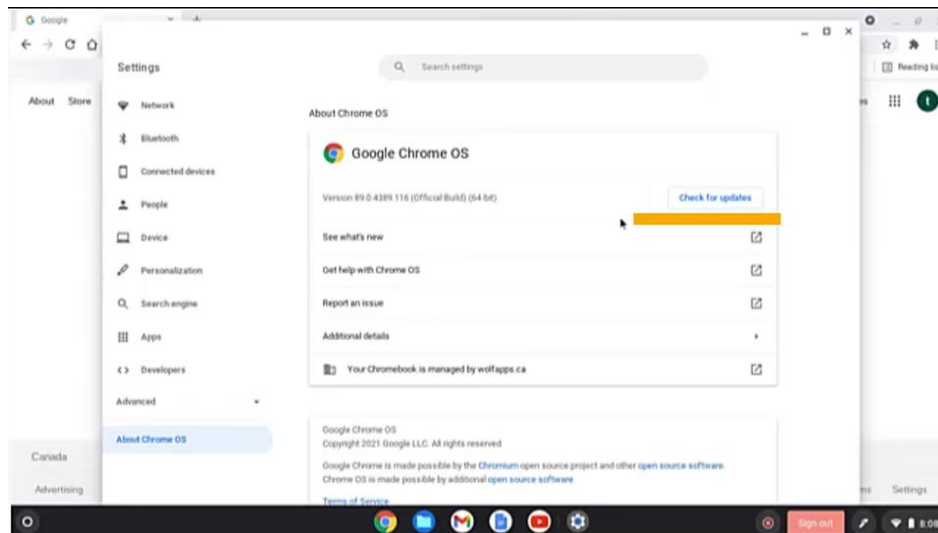

2. Open About ChromeOS

In Settings, select About ChromeOS near the bottom of the left menu.

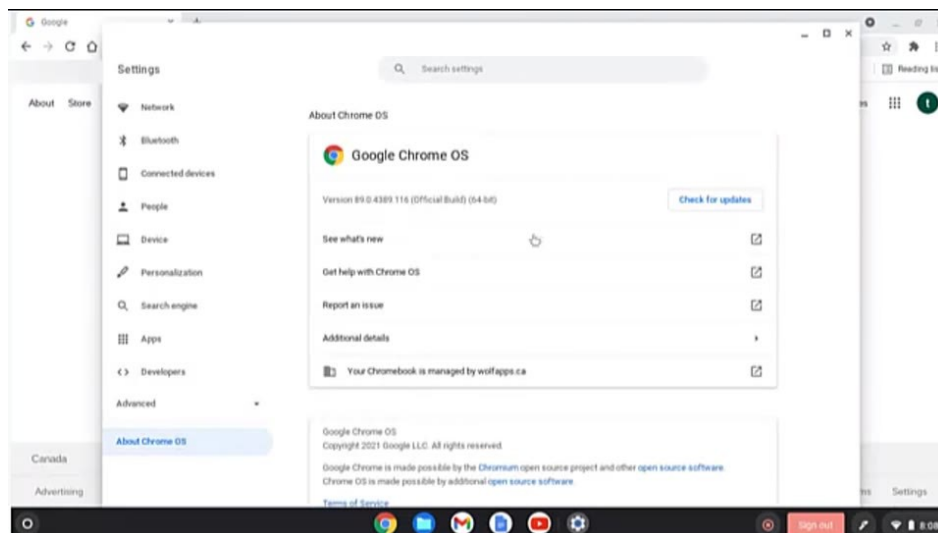

3. Check for updates

Select Check for updates. ChromeOS will check for and install any available update.

4. Restart if requested

If an update is installed and ChromeOS asks you to restart, restart the Chromebook to finish the update.
