

Adjust Chromebox Display Size and Resolution

Make text and content easier to read when a Chromebox is connected to a large or 4K display.

Wolf Creek Public Schools - Technology Services

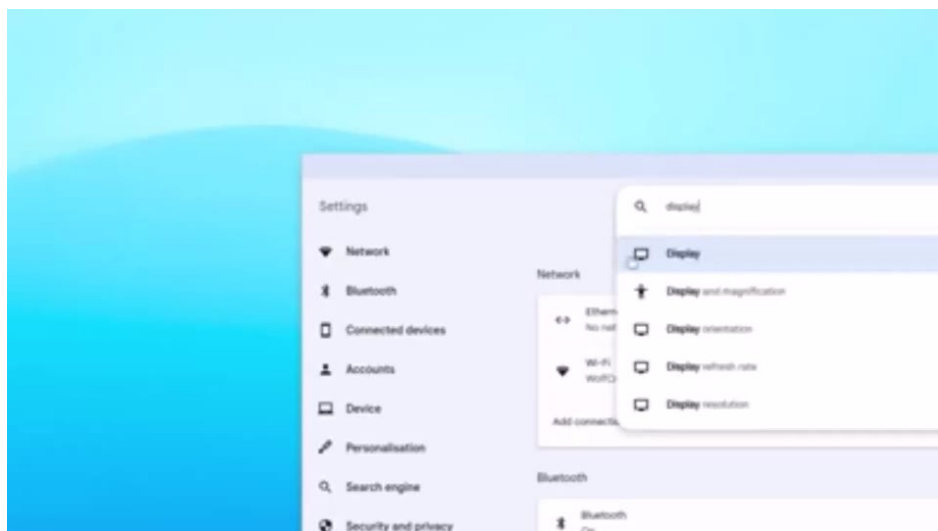

1. Open Settings

Open Chromebook/Chromebox Settings and search for display.

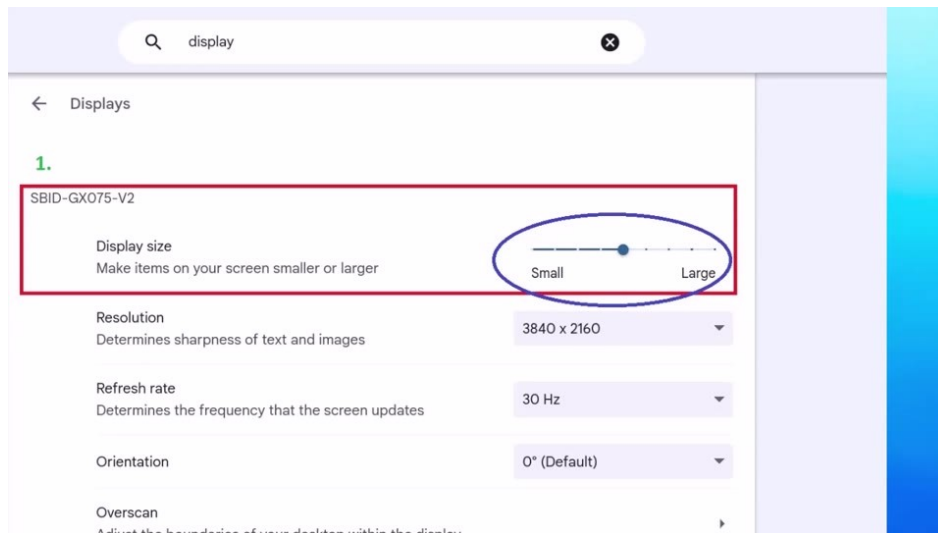

2. Open Displays

Select Display or Displays from the search results.

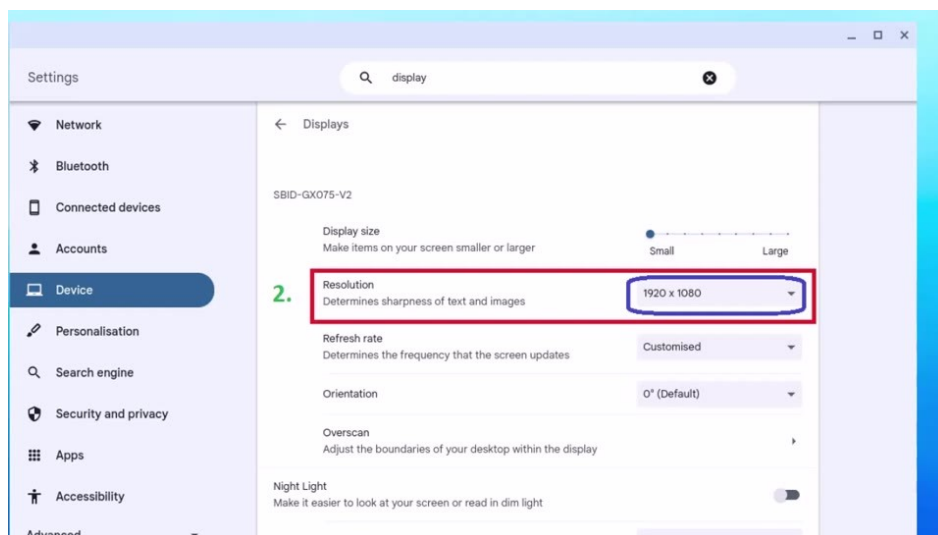

3. Adjust display size

Use the Display size slider to make items on the screen smaller or larger.

4. Change resolution if needed

If the display is still difficult to read, open the Resolution menu and select a more appropriate resolution. The video demonstrates 1920 x 1080 as an alternative on a 4K screen.
