

Google Authenticator App for Google and Microsoft

Wolf Creek security guide

Security reminder: Stop when a request feels unusual or urgent. Verify it using a trusted method and contact Technology Services if you are unsure.

STEP 1 Install Google Authenticator

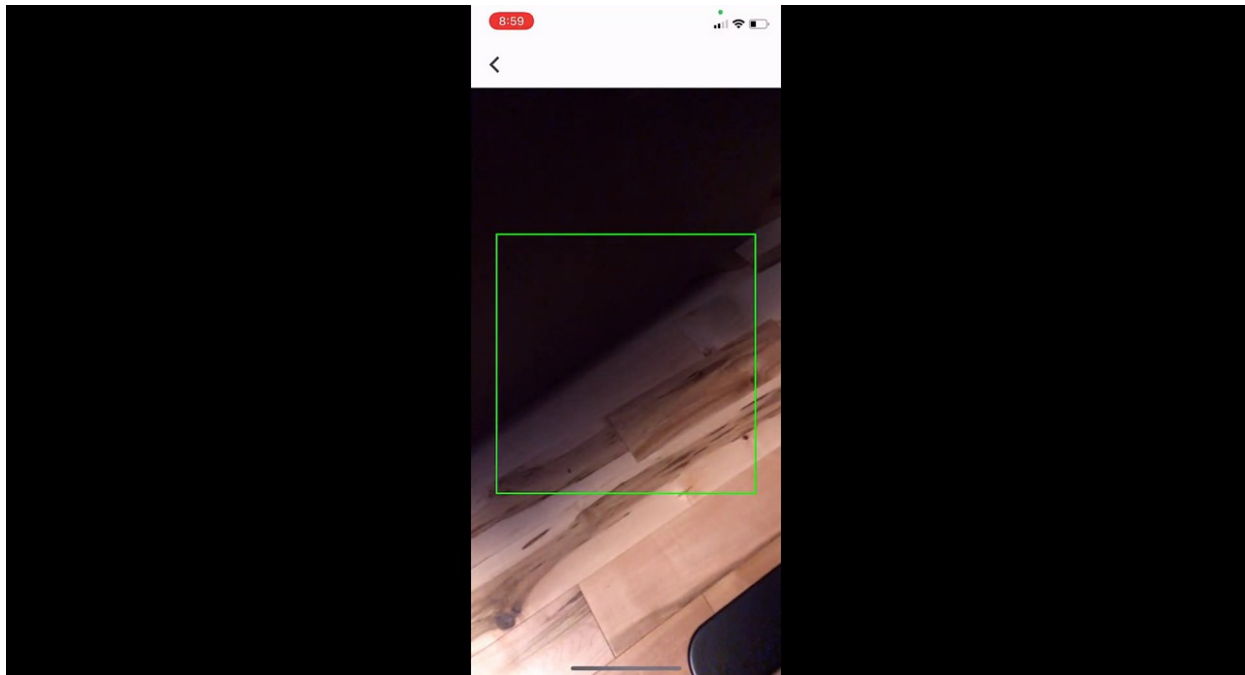

Install Google Authenticator from the official app store on your phone or tablet.

Video reference: Install Google Authenticator.

STEP 2 Add your Google account

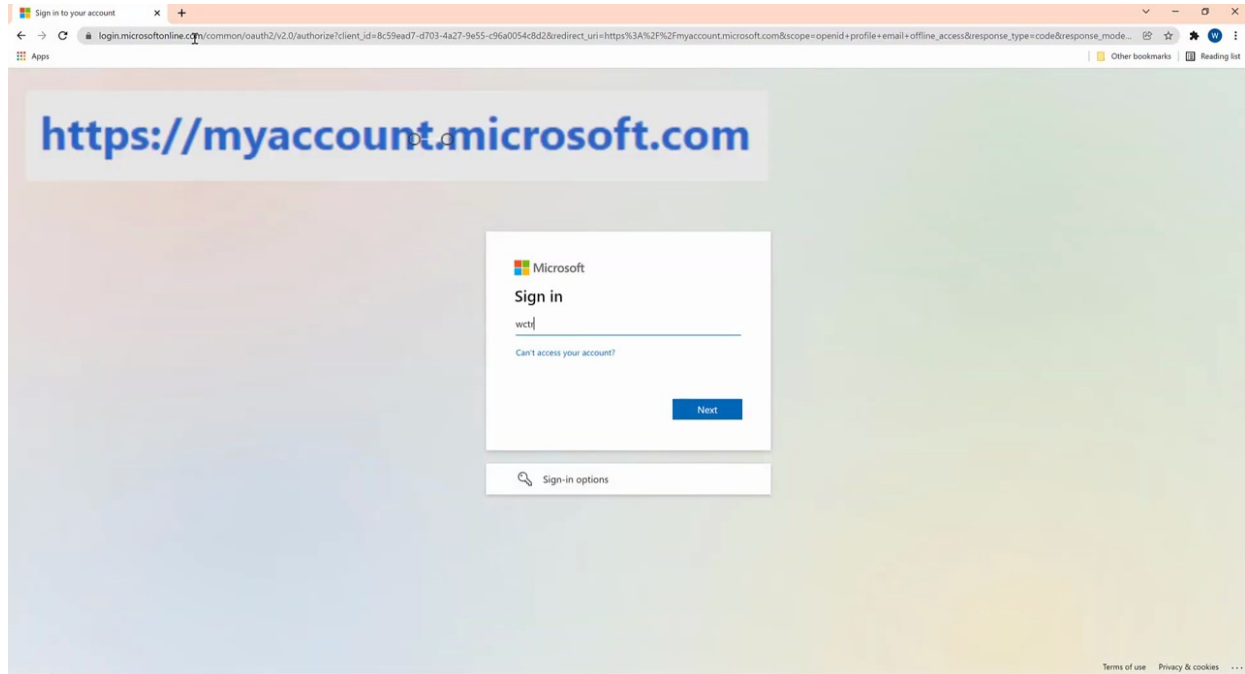

In the account security setup, choose Authenticator and scan the QR code with the app.

Video reference: Add your Google account.

STEP 3 Add your Microsoft account

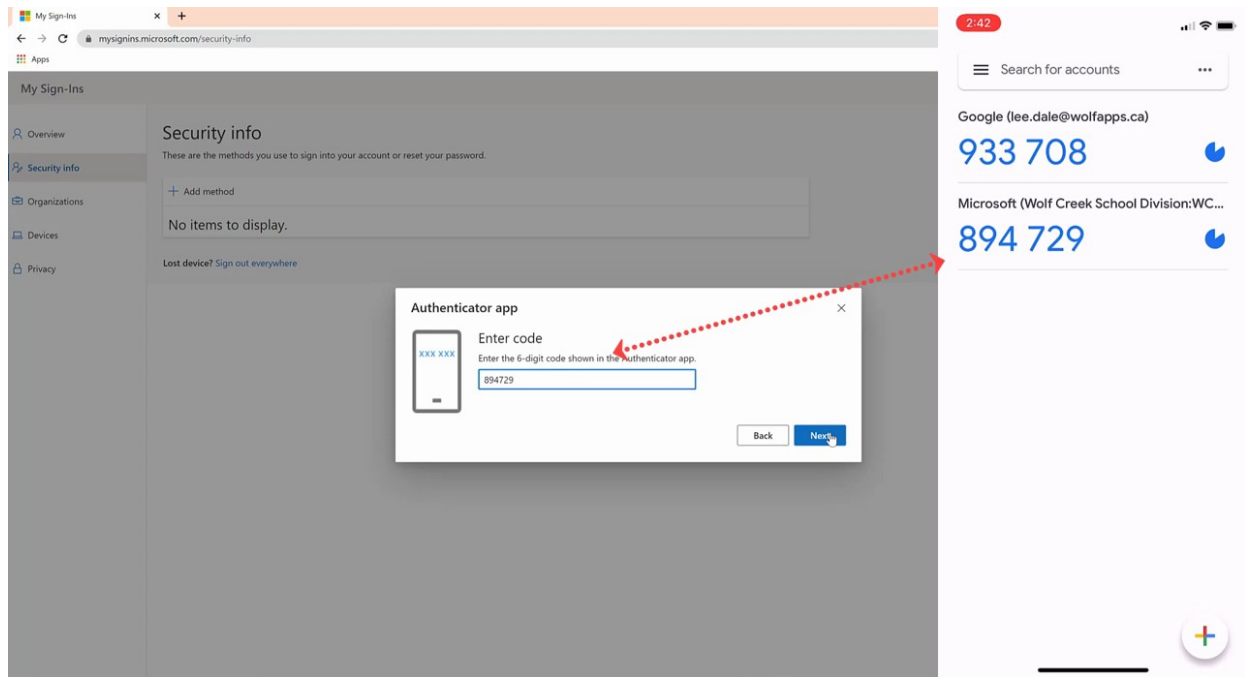

In Microsoft security information, add the authenticator method and scan the displayed QR code.

Video reference: Add your Microsoft account.

STEP 4 Test both accounts

Enter or approve the requested verification codes and confirm both accounts appear correctly in the app.

Video reference: Test both accounts.

Need help?

If you are unsure whether a message, sign-in, extension, or request is safe, stop and submit a Technology Services work order at <https://wcps.freshdesk.com/>.
