

Show original - Who did that email came from?

Step-by-step guide based on the Wolf Creek training video

Before you begin: Use your Wolf Creek Google account and confirm you are working in the correct class, drive, message, or channel.

STEP 1 Open the message

In Gmail, open the email whose sender details you want to inspect.

Open the message.

STEP 2 Open More

Select the three-dot More menu beside the message details.

Open More.

STEP 3 Choose Show original

Select Show original to open the full message information.

Choose Show original.

STEP 4 Review the sender details

Use the headers and authentication results to confirm where the message came from.

Review the sender details.

Finished

Review the final screen to confirm the task completed as expected.
