

What's in a Password

Wolf Creek security guide

Security reminder: Stop when a request feels unusual or urgent. Verify it using a trusted method and contact Technology Services if you are unsure.

STEP 1 Use a long password

Choose a long passphrase that is difficult to guess and easy for you to remember.

Video reference: Use a long password.

STEP 2 Make every password unique

Never reuse your Wolf Creek password on another website or service.

What we know about Passwords

Password Creation Choices

Video reference: Make every password unique.

STEP 3 Store passwords safely

Use an approved password manager instead of keeping passwords in email, documents, or notes.

SECURE PASSWORD CHECK

 **Never enter your real password**
This service exists for educational purposes only - Kaspersky is not storing or collecting your passwords.

8 Characters

.... *

 Password is too short

Your password will be bruteforced with an average home computer in approximately

2 MINUTES

 It's enough time for a little snail to crawl 21 inches

Video reference: Store passwords safely.

STEP 4 Turn on two-step verification

Protect important accounts with a second sign-in method and keep a backup method available.

Video reference: Turn on two-step verification.

Need help?

If you are unsure whether a message, sign-in, extension, or request is safe, stop and submit a Technology Services work order at <https://wcps.freshdesk.com/>.
